

ACKNOWLEDGEMENTS

Firstly, I would like to acknowledge to Research and Researchers for Industries (RRI) Scholarship for supporting my topic research and support tuition fee 502,000 Baht.

I would like to acknowledge limited partnership Korn Det industry for helpful suggestions install a machine the temperature sensor

I would like to acknowledge my advisor, Assoc. Prof. Dr. Tosawat Seetawan, who gave best advice and be guidance of this thesis since start until successful. He gave appreciate suggestion, checked and corrected the fault of this thesis.

I would like to thankful Acting Dr. Kunchit Singsoog, Chief laboratory technologist Thermoelectric, for supports characterization by using X-Ray Diffraction (XRD), ZEM-3 in thermoelectric properties, and gave best advice and be guidance of this thesis.

I would like to thank the thesis committee such as Assist. Prof. Dr. Anek Chareanphakdee, Dr. Athorn Vora-Ud, for their kindly advices and helpful suggestions, including my family supported spiritual for me forever.

Finally, I would like to thank for all of staff at the Center of Excellence on Alternative Energy (CEAE), Sakon Nakhon Rajabhat University, for their helpful for my thesis.

Surasak Ruamruk

TABLE OF CONTENTS

CHAPTER	Page
1 INTRODUCTION	1
Motivation	1
Research objectives	2
Scope and limitation of the thesis	3
Anticipated outcomes of the thesis	4
Thesis structure	5
2 THEORY AND LITERATURE REVIEWS	6
Thermoelectric effect	6
Seebeck Effect	6
Peltier Effect	8
Thomson Effect	9
Dimensionless Figure of Merit	10
Thermoelectric Materials	10
Thermoelectric Materials p-type	10
Thermoelectric Materials n-type	11
Bismuth Telluride	11
Thermoelectric Materials Efficiency	14
Thermoelectric Cell and Module Efficiency	15
Thermocouple Sensor	16
Effect of Thermocouple Voltages	17

TABLE OF CONTENTS

CHAPTER	Page
Reference Junction	18
Standard of Thermocouple	18
Sensitivity	18
Construction	18

5 CONCLUSION AND SUGGESTIONS	83
CONCLUSION	83
SUGGESTIONS.....	84

มหาวิทยาลัยราชภัฏสุราษฎร์ธานี

LIST OF TABLES

Table	Page
1. The energy consumption of thermocouple	20
2. Brief summary of ZT for various thermoelectric materials.....	32
3. The mechanical properties of Bi_2Te_3 and $\text{Bi}_{0.4}\text{Sb}_{1.6}\text{Te}_{3.4}$ bulk	66
4. The formation energy of $\text{Bi}_{2-x}\text{Sb}_x\text{Te}_3$ ($x=0, 0.33, 0.67$)	78

มหาวิทยาลัยราชภัฏสุราษฎร์ธานี

LAST OF FIGURES

Figure	Page
1. Seebeck effect	7
2. Peltier Effect.....	8
3. The relationship between carrier concentration with ZT.The mechanical properties of Bi_2Te_3	10
4. Summary of the temperature dependence of ZT of thermoelectric p-type materials	11
5. Summary of the temperature dependence of ZT of thermoelectric n-type materials	12
6. The crystalline of bismuth telluride (Bi_2Te_3).	13
7. the connection of metal A and B wire of thermocouple	16
8. Show the basic circuit for temperature measurement using thermocouple	18
9. the system diagram of the ESP8266.....	23
10. The relationship between temperature and the ZT of $\text{Bi}_{0.5}\text{Sb}_{1.3}\text{Te}_3$	24
11. The relationship between temperature and the ZT of $\text{Bi}_2\text{Te}_{3-y}\text{Se}_y$	25
12. The relationship between temperature and the ZT of $\text{Bi}_2\text{Te}_2\text{Se}_1$	25
13 The relationship between temperature and the ZT of $(\text{Bi}_{0.2}\text{Sb}_{0.8-x}\text{Pb}_x)_2\text{Te}_3$ and..... $\{(\text{Bi}_{0.2}\text{Sb}_{0.8})_2\text{Te}_3\}_{1-2x}(\text{PbTe})_{2x}$	26
14. The relationship between temperature and the ZT of Bi_2Te_3	27
15. The relationship between temperature and the ZT of mechanically alloyed Bi_2Se_3	28
16. The relationship between temperature and the ZT of $\text{Bi}_2\text{Te}_{2.7}\text{Se}_{0.3}$	29
17. The voltage that occurs at various temperatures at 10GHz.....	29

LAST OF FIGURES (Continued)

Figure	Page
18. The relationship between voltage and time.	30
19. the relationship between voltage and time	30
20. The output voltage of the device at different temperature difference.....	31
21. The sample preparation of HP product and sintered samples	34
22. Synthesis and characterization of Bi_2Te_3 and Sb_2Te_3	35
23. The FE-SEM observations were performed on Scanning Electron Microscope JSM-7800F Prime	36
24. Schematic diagram of the SEM equipment	37
25. The SEM observations were performed on a Hitachi-S-3400 Scanning Electron Microscope.....	38
26. Principle of X-ray diffraction.....	39
27. The X-ray diffraction (XRD) measurement.....	40
28. Diagram of the Vickers hardness tester model.....	42
29. The Vickers hardness tester Model.....	43
30. ZEM-3; ADVANCE RIKO Technologies apparatus	44
31. The thermal conductivity (TRC Thermal).....	45
32. density Kit	46
33. ESP8266 circuits, Bluetooth 4.0 BLE with logic level translator	48
34. MiNi USB, (b) 2-channel 5VDC relay	49
35. Micro sd card module side, Character LCD module display.....	49
36. 830-point breadboard Male to male jumper wire and male to female jumper wire and Temperature sensor.....	50
37. Temperature sensor with Arduino circuits	50

LAST OF FIGURES (Continued)
