

ACKNOWLEDGEMENTS

I would like to express my sincere gratitude to my advisor and co–advisor, Assoc. Prof. Dr. Tosawat Seetawan and Assoc. Prof. Dr. Anucha Yangthaisong, who advised and guided me from start to finish.

I would like to express my sincere gratitude to my research–advisor, Assoc. Prof. Dr. Wilson Agerico Diño (Diño sensei) for the instructive support, kind teaching on theoretical technique, and informative suggestion.

I would like to express my sincere gratitude to Asst. Prof. Dr. Pornjuk Srepusharawoot, Department of Physics, Faculty of Science, Khon Kaen University, Thailand, for providing the MSNcluster to calculate the self–defect TiNiSn.

I would like to express my sincere gratitude to the dissertation committee, Prof. Dr. Rattikorn Yimnirun, Assoc. Prof. Dr. Wilawan Kumharn, Dr. Athorn Vora–ud and Dr. Hassakorn Wattanasarn for their kind advice and helpful suggestions.

My sincere appreciation to all past and present staff members, masters and Ph.D. students of Diño Research Group, Department of Applied Physics, Graduate School of Engineering, Osaka University, Osaka, Japan, and Center of Excellence on Alternative Energy, Research and Development Institution & Program of Physics, Faculty of Science and Technology, Sakon Nakhon Rajabhat University, Sakon Nakhon, Thailand, for suggestions, discussions, support, and friendship.

Finally, I would like to express my sincere gratitude to Thailand scholarship “the Royal Golden Jubilee (RGJ) Ph.D. Program (Grant No. PHD/0195/2558)” for financially supported.

Meena Rittiruum
